MAINTENANCE SERIES

CAT-501S

Auto Transmission Cleaner and Fluid Exchanger

An automatic machine to clean the oil of automatic gearbox by the pressure difference between the automatic gearbox and pump.

Features

- Cycle cleaning with detergent
- Equivalent exchange with high accuracy
- 5 inch display
- Fluid exchanging result customized printing
- Free full set of vehicle connectors upgrading globally
- Fluid flow automatical recognition
- Fluid level adjustment
- Filter replacement warning
- Optional VGA function
- Frequently-used vehicle adding and searching list

Parameters

Power Supply	AC110V/220V 50Hz/60Hz
Pump Power	150W
Working Temperature	-10~50°C
Relative Humidity	< 90%
Working Noise	< 70db
Working Air Pressure	86~106kpa
Waterproof and Dustproof	Ip42
Filter Accuracy	5µm
Rate of Flow	≥2.2L/60s
Oil Tank	20L×2
Equal Exchange Error	±100mli
